

The Digital LED for a New Dimension of Light

With this we want to raise your attention to the 4th ISELED Conference, October 19th.

The event will be in a hybrid format. Hence an "on site" event at the premises of "Sueddeutscher Verlag" in Munich with maximum of 98 attendees, due the Covid restrictions, and as an "online" event via Internet.

Check out the Agenda Here!

The online attendance is for free, only a registration is required to attend.

Beside the presentations and discussions also an exhibition with several companies presenting their products around the smart LED technology will be available.

Online participants around the world will also have the possibility to see the exhibition and ask questions to the exhibitors there, since during the conference breaks a camera team and an interviewer will visit the booth.

Feel free to book your free online attendance for our 4th ISELED Conference:
