

Dear DFF Members and Display Friends,

the First Summit Meeting “Display Technologies for Professional and Automotive Applications” will be hosted by Merck KGaA and will take place **June 9, 09:00-11:00 a.m. and 04:00-06:00 p.m. Central European Summer Time (CEST).**

Still restricted by the governmental rules, the meeting will be organized as a **virtual meeting via Microsoft Teams**. We are very happy that one more time this meeting comes with experts and scientists, who help us to understand the 'state of the art' display technologies for professional and automotive applications.

As we didn't want to compromise the great idea of bringing people together from all over the place, we have scheduled two sessions at the same day, one in the German morning, another in our afternoon.

That means, the "early" one starts at **09:00 a.m. (CEST)**, which is in Asia:
03:00 p.m. (Beijing, Taipei, Hong Kong, Singapore)
04:00 p.m. (Tokyo)

The later one starts at **04:00 p.m. (CEST)**, which is in the USA:
10.00 a.m. (EDT)
09:00 a.m. (CDT)
08:00 a.m. (MDT)
07:00 a.m. (PDT)

Both sessions have the same speakers and the same presentations. You will find the program in the attachment.

All the presentations will be uploaded to our website prior to the meeting time. This should help you to follow the meeting in case of technical issues.

Please let us know which session you would like to attend by May 30th. Please tick the appropriate and send your answer to our secretary Anita Wedel: secretary@displayforum.de

I will attend the session starting 09:00 a.m. (CEST).

I will attend the session starting 04:00 p.m. (CEST)

You will receive the data for joining the meeting after your registration.

After all this organizational stuff let me express my warm welcome to all of you who are going to meet us in June.

Kind regards

Dr. Ulrich Rütten
General Manager DFF
